Introduction to MXChip & Azure IoT Central

Recent Case: 春一枝冰櫃

春
一
枝

How long does enterprise companies *often* insist on building *IoT solutions on average?*

9 months

Azure IoT Central

IoT Central is an IoT application platform that **reduces the burden and cost** of developing, managing, and maintaining enterprise-grade IoT solutions.

Solution Prototyping

1

Send telemetry data

- Temperature
- Humidity
- Pressure

2

Dashboard

Custom Rules

For example: when the temperature is over -10 °C.

3

If triggered

MXChip & Azure IoT Central

Demo

Hands-on Scenario

Scenario: Mask Factory

口罩打片機故障偵測

- 溫度過高
- 輸送帶打片狀態

口罩點焊機故障偵測

- 溫度過高
- 氣源壓力不夠
